Taught by local experts and business owners, learning opportunities range from home repair to exercise; from preparing quick, healthy meals to making greeting cards; and from planning your perfect Disney vacation to making the most of your mobile phone apps. Registration for the Fair is now open, so be sure to visit howtofairplainfield.com for a complete list of workshops! There is something for everyone!

The How-To Fair has all the latest trends covered - Essential Oils are all the rage and you can learn how to use them in your daily life at the How-To Fair. Plus, we're offering workshops on How To Cut the Cable Cord and the latest food trends. We've also added classes for kids this year – learn tips and tricks on how to be safe around dogs and how to perform cool magic tricks.

For all of you home cooks or aspiring home cooks, attend the Fair to learn how to make quick and healthy recipes, brew a great cup of coffee, and prepare the perfect cheese plate. If crafts are your passion, get help with your painting skills, learn to make bows for your holiday gifts, or learn how to knit.

Do you need help with your tech skills? You'll find it at the fair – you can learn how to build your own web site in under an hour, how to digitally organize and store your photos, or how to simplify your life with phone apps. Social media usage continues to grow and at the How-To Fair you can learn how to build your social media presence online, how to use social media to search for your ancestors, and how to use social media for your small business.
