For Immediate Publication:

***2011 Roadway Maintenance Programs***

Plainfield, IL -- Contractors will begin working on the Village's 2011 roadway maintenance programs this week.

Beginning Friday, June 24<sup>th</sup>, the Village will have a contractor in several neighborhoods throughout the community for the purpose of crack filling the roadways. Crack filling seals the lateral and transverse cracks in the roadway surface with hot bituminous filler material. This process helps to prevent the water from entering the asphalt and causing damage with the freeze/thaw cycle. The Village's 2011 Crack Filling Program will include the improvement of various streets within the Farmstone Ridge, Heritage Oaks, Century Trace, and Crossings at Wolf Creek subdivisions as well as a section of Lockport Street east of Route 59.

The Village's 2011 Striping Program will begin Wednesday, June 29<sup>th</sup> and striping work will occur in the following areas: the Liberty Grove and Vintage Harvest subdivisions, 135<sup>th</sup> Street (from Route 30 to Blakely Drive), Fort Beggs Drive, Fraser Road, and James Street.

All roadways will remain open to traffic and both programs will be completed in approximately three weeks.

For additional information, please contact:

Randall Jessen  
Superintendent of Public Improvements  
Plainfield Public Works Department  
(815) 436-3577
