## Press Release

March 12, 2010

For Immediate Publication:

### *Canadian National Railway To Install Second Rail Line*

Plainfield, IL -- Canadian National Railway has begun work in preparation for the installation of a second rail line between 111<sup>th</sup> Street and 127<sup>th</sup> Street.

The railway's contractor is currently clearing overgrown vegetation, installing silt fence, and excavating in preparation for the installation of a new aggregate base for the second rail line. This work is expected to take approximately two to three months. The designated travel route for construction traffic is 111<sup>th</sup> Street to Normantown Road to 119<sup>th</sup> Street to Route 30.

The second phase of the project is the actual installation of the second rail line which includes realigning a section of the existing track and adding a second track. This phase will also include at-grade crossing work at both the 127<sup>th</sup> Street and 119<sup>th</sup> Street crossings this summer. This project will link the existing second rail just north of 111<sup>th</sup> Street with the existing second rail south of 127<sup>th</sup> Street. The anticipated completion date of the project is November of 2010.

For additional information, please contact:

Randall W. Jessen  
Superintendent of Public Improvements  
Plainfield Public Works
