For Immediate Publication:

August 9th Event to Feature Trees and Shrubs in Native Landscapes

Plainfield, IL -- Flowering native plants and showy grasses get a lot of attention in native landscapes, but native trees and shrubs can play a valuable role, too. These landscape staples will be the focus of the upcoming Green Village Lecture Series workshop, to be held August 9th, at 7 p.m., at the Plainfield Public Library, sponsored by Waste Management. Kelsay Shaw, of the Possibility Place Nursery in Monee, is the featured presenter.

The 2010 Green Village Lecture Series is generously sponsored by Illinois Landscape Supply. The program is a partnership between the Village of Plainfield and the Plainfield Public Library District to host monthly workshops with an environmental focus. Events are held the second Monday of each month, beginning at 7 p.m. at the Plainfield Public Library. To register to attend an event, visit <http://Plainfield.lib.il.us/evanced/eventcalendar.asp>. For more information about Illinois Landscape Supply, please visit www.illinoislandscapesupply.com.
