

**Village of Plainfield 2010 Rain Barrel & Composter Program
ORDER FORM**

Thank you for your interest in purchasing a rain barrel(s) and/or tumbling-style compost maker(s) through the Village of Plainfield's *2010 Rain Barrel & Composter Program*, a component of Plainfield's "Green Village" initiative. Rain barrels are an excellent way to reduce water consumption, improve groundwater recharge, and save money while helping the environment. Compost bins are an excellent way to redirect organic waste from the solid waste food stream and generate nutrient-rich additives for your garden. Please complete the order form below and return it with payment per the instructions to place your order. You have the option of purchasing either a rain barrel(s) or tumbling compost maker(s) or purchasing both items.

Customer Information:

Name: _____

Address: _____

Phone: () _____ - _____

E-mail: _____
