Press Release

January 20, 2011

For Immediate Publication:

Route 59 Construction

Plainfield, IL -- Lockport Street at Illinois Route 59 will be partially closed in order to allow for the reconstruction of an AT&T manhole located within the intersection, in conjunction with the Illinois Route 59 reconstruction project. **Left turn maneuvers will again be prohibited from Lockport Street to Illinois Route 59 in both the eastbound and westbound directions beginning Monday, February 7, 2011.** At the conclusion of this utility work, it is expected that the roadway contractor will resume construction operations shortly thereafter, necessitating continuance of the partial roadway closure.

The utility work will be completed by Electric Conduit Construction Company of West Chicago for AT&T, while D Construction is responsible for the roadway work. Both projects are part of the Illinois Route 59 reconstruction project.

For additional information, please contact:

Greg Heiden
Transportation Engineer
Plainfield Public Works Department
