Railroad Grade Crossing Enforcement Results

Plainfield IL – In conjunction with the CN Railroad Police, BNSF Police, and Union Pacific Police, the Plainfield Police Department conducted an enforcement detail at the railroad grade crossing located on Route 126 east of Route 59 on July 20th.

The focus of the enforcement was to cite drivers that disobeyed activated railroad signals, stopped their vehicle within the railroad grade crossing, or failed to stop when driving a vehicle required to stop, such as a school bus. During the detail, the following citations and written warnings were issued:

- 20 citations for stopping within railroad grade crossing
- 4 citations for no insurance
- 3 citations for failure to wear seat belt
- 1 citation for failing to notify secretary of state of address change
- 2 written warnings for stopping within railroad grade crossing

Please remember, not only is it against the law to stop your vehicle on the railroad tracks, it is against the law to stop your vehicle anywhere within the highway-rail grade crossing. Highway-rail grade crossings are typically marked by white stop lines located on the pavement in advance of the crossing, and if not marked by white stop lines, the highway-rail grade crossing extends from protective gate arm to protective gate arm.

All trains overhang the rails by three feet on each side, and wide dimensional loads on trains can overhang the rails by up to five feet on each side. In addition, when vehicles illegally stop within the highway-rail grade crossing, the protective gate arm will lower itself on to the vehicle. This will result in damage to both the protective gate arm and vehicle.

When crossing railroad tracks, you must always follow the law and be aware of your surroundings! And, please remember to buckle up, every time, every trip!
